

Home learning for Room 6 – Week 6 Term 3

Cultural Diversity

Our world is a special place. It has many continents and oceans on it. Complete the around the world activity sheet to show your discoveries about our world.

This is an image of the page to complete!

Production:

A letter will be coming home soon to outline clothing required for the production. The students are practising every day and are getting extremely excited for the coming shows taking place in week 9! Information about ticketing will be sent closer to the event!

Keeping Ourselves Safe

This week we are learning about how to identify potentially unsafe situations involving people. These situations could be people that children are with all the time, those they meet in the real world, or people that they meet online in the digital world. The students will learn how to use **STAR (Stop, Think, Act and Report)** if appropriate) when they feel unsafe.

Please complete the homelearning activity sheet: Safety with People.

For Maths this week use Mathletics to complete activities including the fraction activities that have been set.

Cross Country event takes place next week. It will be run on the field so it is vital that the students are practising on the field. For this to happen, all students need a change of clothes to run in. Please help your child to remember to bring a change of clothes to school this week.

Hi everyone! Many thanks to the families who came to the open afternoon event. The children and I were so pleased to be able to show you the fun learning that was taking place in our classroom. Miss Moore (student teacher) returns to our class this week and will be with us for the next three weeks. Please make her feel welcomed to our class. Please remember to bring slippers or warm socks and polar fleeces to keep warm!

Thank you!

From Miss Swinton

This week's learning will include:

- Keeping ourselves safe
- Persuasive writing
- Cultural diversity
- Maths – fractions of numbers
